

Enforcement Personnel on the Lookout for Unsafe Commercial and Passenger Vehicle Drivers During Operation Safe Driver Week, July 15-21 , 2018.

The Commercial Vehicle Safety Alliance's (CVSA) Operation Safe Driver Week will take place July 15-21, 2018. Traffic safety personnel will be on the lookout for unsafe driving behaviors by commercial motor vehicle (CMV) drivers and passenger vehicle drivers as we work toward zero deaths on our roadways.

Unsafe driver behaviors by CMV drivers and passenger vehicle drivers continue to be the leading cause of crashes. The Federal Motor Carrier Safety Administration's (FMCSA) "[Large Truck Crash Causation Study](#)" cites driver behavior as the critical reason for more than 88 percent of large truck crashes and 93 percent of passenger vehicle crashes.

Examples of dangerous driver behaviors that enforcement personnel will be tracking throughout Operation Safe Driver Week are speeding, distracted driving, texting, failure to use a seatbelt while operating a CMV or in a passenger vehicle, following too closely, improper lane change, failure to obey traffic control devices, etc.

CVSA's [Operation Safe Driver Program](#) was created to help to reduce the number of crashes, deaths and injuries involving large trucks, buses and passenger vehicles due to unsafe driving behaviors. During Operation Safe Driver Week, there will be increased CMV and passenger vehicle traffic enforcement.

Operation Safe Driver Week is sponsored by CVSA, in partnership with the Federal Motor Carrier Safety Administration and with support from industry and transportation safety organizations, and aims to help improve the behavior of all drivers operating in an unsafe manner – either in or around CMVs – through educational and traffic enforcement strategies to address individuals exhibiting high-risk driving behaviors.
