## JOE SKLUZACEK BRAVES WEATHER AND LOT FOR FISH

*by Keith Petersen*

Due to changing temps in Minne-snow-dah, we hearty northerners are used to some quick changes when the seasons change from winter to spring.

But, are we ready for this!?

When a Facebook opportunity to post shows it self, I'm usually up to the task. As luck would have it Joe was a willing partner! We went out to grab Russ' fish-pole and see if we could get anything to bite! We did haul in a very small squeezable tractor, but as with fishing, it did not meet "keeper" regulations and we had to toss it back!

Chin up drivers, the warmer spring and summer weather quickly approaches.
