Travel the U.S. with Styer!

by Keith Petersen

Recently Styer OTR driver **Norton Jensen** was out east delivering a Planet Fitness load to CT, and had a reload back to MN out of Housatonic MA, where he snapped the above photo.

The shipper out in New England was a paper mill supplier named Hazen Paper. Hazen was founded back in 1925 and is a world-class paper convertor specializing in custom holographic originations, film foil and more.

I'm not sure how old that Rising Paper building is, but would not doubt if it went back to the turn of the century!

Truck drivers have a unique opportunity to travel the U.S. while they are working in their roles, and many have the opportunity to snag a picture just like this, and here at Styer we'll welcome any and all pictures from our professional drivers and part time amateur photographers!

Thanks Norton for sending it in!
